Deductive Dilemmas

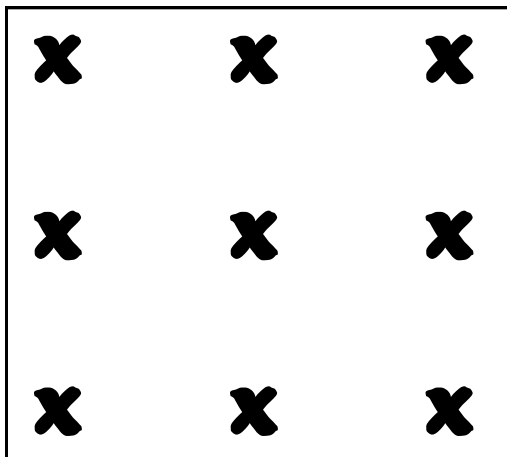

Happy Birthday

Four students in Mrs. Henley's art class have July birthdays. Read the clues to figure the day and how old each student will be over summer break.

- Eli will be 14 on his next birthday.
- Neither of the girls was born on the 4th of July.
- Aubrey is the youngest of the four children.
- Simon's birthday is before Abby's but after Eli's.
- Neither of the boys was born at the end of the month.
- Abby's birthday is before Aubrey's.
- Simon is younger than Abby, but his birthday comes before hers.

Abby	Eli	Aubrey	Simon
July 4	July 4	July 4	July 4
July 10	July 10	July 10	July 10
July 20	July 20	July 20	July 20
July 31	July 31	July 31	July 31
Age 14	Age 14	Age 14	Age 14
Age 13	Age 13	Age 13	Age 13
Age 12	Age 12	Age 12	Age 12
Age 11	Age 11	Age 11	Age 11

Quick Quiz

By drawing only 2 squares, separate each of the 9 Xs from each other so that no two Xs are together.
